

Evict pest birds without harming them!

Bird BLazer

A pigeon is shown in flight over a corrugated metal roof. To the right, a black Bird BLazer device is mounted on the roof, emitting several bright green laser beams that crisscross the scene. The pigeon's wings are spread, and its tail feathers are visible. The overall scene is set against a dark background, emphasizing the bright green laser beams.

**State-of-the-art technology
guards against pigeons, sparrows, starlings & swallows.**

Solve bird problems nearly anywhere!

- **Safe & Humane:** does not harm the birds - just scares them away
- **Powerful:** 10 milliwatts of fat beam laser power
- **Economical:** one-time purchase, covers up to 10,000 square feet
- **Permanent:** keep the birds out once and for all
- **Trouble-free:** easy installation, no maintenance
- **Works day and night:** laser beams constantly change pattern and location
- **Guaranteed:** all Bird-X electronic products are satisfaction guaranteed

**FIRST-EVER INDOOR
LASER BIRD REPELLER**

BIRD-X 
since 1964

A revolution in industrial bird control:

Bird BLazer

FAT-BEAM LASER BIRD REPELLER

Laser beams are well-documented to chase away pest birds. The beam seeks out their roosting-spots, alarming and confusing them, and they flee. Bird-X's maintenance-free, technological breakthrough makes current hand-held, labor-intensive lasers obsolete - and opens up this proven method of bird control for general industrial use.

Bird BLazer is the most powerful and effective way to keep pest birds out of large enclosed spaces. This fully registered, consumer-safe fat-beam laser is ideal for:

- Warehouses***
- Loading docks***
- Hangars***
- Transit facilities***
- Machine sheds***
- Storage areas***
- Parking structures***
- Sports facilities***
- Boathouses***

... nearly anywhere

Convenient remote control

SPECIFICATIONS

Laser Diode: 10 mW FAT BEAM green - shown most effective
Classification: 3R
Weight: 9 lbs / 4 kg
Power: switchable AC 110-120v or 220-240v 50 - 60 Hz, 50 watts
Size (mm): L220 x W280 x H172
Coverage: up to 10,000 square feet
Operating temperature: 64-77°F / 18-25°C
Safe temperature for use: 41-104°F / 5-40°C

Model #BLAZER:

- Includes:**
- remote control
 - two security keys
 - mounting hardware
 - full instructions
