

BroadBand PRO

See website for current pricing.

The BroadBand PRO combines sonic AND ultrasonic audio to get rid of pest birds with a comprehensive, multi-faceted audio attack. The sounds confuse, disorient and intimidate pest birds, keeping them away.

- Four loudspeakers emit natural recordings and can be placed throughout property at varied angles, heights, and distances
- Customizable settings allow for a program that is tailored to you
- Combines sonic AND ultrasonic sound waves
- Comes with 3 Visual Scares for maximum synergistic effect

SONIC: Uses bird distress calls and predator cries; covers up to 6 acres

ULTRASONIC: Uses high-frequency sound waves; covers up to 3,600 sq. ft.

Testimonial

The BroadBand PRO has significantly reduced the health hazards for our employees and contract workers. The birds have relocated away from the powerhouse and gone back to their natural environment. They're no longer seeking shelter in our plant areas.
—Richard B. from Pacificorp plant in Wyoming.

Details

- Sonic & ultrasonic – emits a combination of audible noises and high-frequency sound waves that are silent-to-humans
- 4-speaker system – includes 4 independent speakers with 100 ft. of wire each
- Fully programmable – you control volume, sound delays, day/night operation
- Real sounds – digital playback of naturally recorded threats, plus ultrasound
- Weatherproof – NEMA Rated casing is designed to withstand outdoor use
- Three (3) [visual scare products](#) included.
- Solar powered option – use our [Large Solar Panel](#) to run your unit off a 12v battery

Applications

Repels pest birds including pigeons, crows, sparrows, starlings, seagulls, grackles, cormorants, vultures, etc.

Effective coverage up to 3,600 sq. ft. (ultrasonic) and 6 acres (sonic).

Recommended for use in outdoor areas, such as:

- Warehouses, manufacturing, plants
- Facilities & corporate grounds
- Transportation platforms & loading docks
- Farms, barns, stables
- Sheds & storage buildings
- Apartments & condo buildings
- Homes, gardens, patios
- Parking garages
- Waterfront property & boat houses

Benefits

- Cut recurring cleanup and repair costs
- Protect buildings and equipment from corrosive bird droppings
- Reduce health and liability risks associated with pest bird infestation
- Prevent the spread of diseases, such as West Nile, Salmonella and E. Coli
- Eliminate fire hazards caused by birds building nests in vents and chimneys
- Avoid government and safety inspection failures
- Save parks, yards, corporate grounds, pools, ponds, turf, etc. from bird damage
- Increase/maintain property aesthetics
- Decrease nuisance for residents, workers, customers, etc.
