

## Bird BLazer

See website for current pricing.

### **MONEY-BACK GUARANTEE!!**

This **electronic laser bird control device** uses fat-beam laser technology to safely frighten birds away.

- Multi-colored lasers (3 colors) confuse birds
- Laser beams constantly change patterns to prevent acclimation
- Works day and night
- Use indoors and/or in semi-enclosed spaces
- Covers up to 10,000 sq. ft.
- World's first **indoor laser bird repellent** device

**Laser beams are a well-documented way to chase away pest birds.** This technological breakthrough makes current hand-held labor-intensive lasers obsolete and opens up this proven method of bird control for general industrial use.

### **Customer Testimonial**

***I purchased two Bird BLazer units, installed them at opposite ends of the building, and activated them.*** The pigeons reacted immediately and fled. The vast majority [of starlings] were frightened off after about a week or so. The beam doesn't even have to hit them. If it passes close to them, they flee the area. We've had no problems since we installed them.

—Ian Tibboel, owner of an animal removal company in Des Moines

### **Details**

- Fat-beam laser technology safely frightens birds away
- State-of-the-art, fully registered, consumer-safe device
- Works day and night
- Laser beams constantly change patterns and location to prevent birds from acclimating

### **Applications**

Repels pest birds including pigeons, sparrows, starlings, and more; also deters rodents, bats and other small critters.

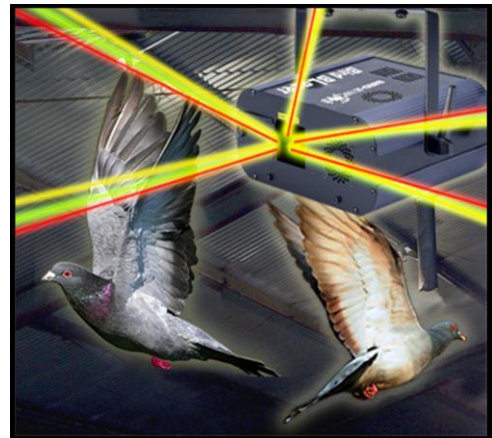

Effective coverage up to 10,000 sq. ft.

Recommended for use in large indoor or semi-enclosed spaces, such as:

- Warehouses & plants
- Sports arenas & convention centers
- Parking garages & car washes
- Tunnels, underpasses & breezeways
- Airplane hangars & boat houses
- Barns & storage sheds
- Etc.

### **Benefits**

- Cut recurring cleanup and repair costs
- Protect property and equipment from corrosive bird droppings
- Reduce health and liability risks associated with pest bird infestation
- Prevent the spread of diseases, such as West Nile, Salmonella, and E. Coli
- Eliminate fire hazards caused by birds building nests in vents and chimneys
- Avoid government and safety inspection failures
- Increase/maintain property aesthetics
- Decrease nuisance for residents, workers, customers, etc.

### **Specs**

- Dimensions: 8.5" x 11" x 6.5"
- Weight: 10 lbs
- Coverage: up to 10,000 ft.
- Laser Power: 10mW FAT BEAM
- Unit Power: 50 watts
- Laser Color: green
- Power: AC 100v~120V or 220V~240V, at 50/60Hz
- Electric Current: 110v = 0.45 amps 220v = 0.23 amps
- Classification: 3R
- Fuse: 20mm x 2A slow-blow
- Housing: metal
- Beam Divergence: <1.5 mrad
- Operating Temperature: 64–77°F/18–25°C
- Safe Temperature for Use: 41–104°F/5–40°C

**SKU # BLAZER**

### **Guarantee + Warranty**

Backed by our 30-day electronics guarantee AND our 6-month manufacturer's warranty.
