

## BirdXPeller PRO

See website for current pricing.

**The BirdXPeller PRO is a sonic bird repeller** that broadcasts a variety of naturally recorded bird distress signals and predator calls that frighten, confuse and disorient pest birds within the effective range. Pest birds cause damage, liability and health hazards. **Sonic bird control is a safe, humane, eco-friendly way to get rid of birds from outdoor areas.**

- Sonic repellers use high-definition digital recordings
- Customizable settings allow for easy, DIY pest control
- Weatherproof, NEMA Rated casing
- Covers up to 1 acre

### Customer Testimonial

**Great product!** We have been battling Pigeons at the Historic Will Rogers Hotel since 1930. The BirdXPeller Pro is the first thing that has really worked! We had approximately 100 Pigeons on our roof for the past 70 years. We plugged the unit in and they flew away and have not returned. It's great; you have one happy customer!  
—Jane from Oklahoma

### Details

- Sonic – emits audible sounds that deter birds
- Single speaker unit
- Fully programmable – you control sounds, volume, interval, day/night operation
- Weatherproof – NEMA Rated casing is designed to withstand outdoor use
- Real sounds – high-quality digital playback of naturally recorded threats

**Version 1 repels:** pigeons, starlings, sparrows and gulls

**Version 2 repels:** crows, blackbirds, grackles, cormorants and ravens
