

## Mega Blaster PRO

See website for current pricing.

**Our most powerful sonic bird control system uses intermittent distress calls to create a “danger zone” that frightens infesting birds away for good.**

- Two high-output amplifiers with specially-designed 20-speaker tower
- Comes with four different configurations for common bird infestations
- Customizable settings
- Weatherproof, NEMA Rated casing
- Covers up to 30 acres (12 hectares)

This unit is capable of sound output up to 125 decibels.

**HEARING PROTECTION IS RECOMMENDED.**

### Testimonial

We have used the Mega Blaster in our vineyards and are very pleased with the results. The unit was mounted on a trailer and shifted every couple of days to confuse the birds. There was very little bird damage within a 200 metre radius (12.5 hectares). The customized microchips programmed to suit our bird species were much more pleasant (than previous electronic bird repellers) and successful. I would have no hesitation in recommending this electronic equipment.

–Herman S. from New Zealand

### Details

- Sonic – emits predator cries that scare and deter pest birds
- Two high-output amplifiers drive the 20-speaker tower
- Fully programable – you control 8 sounds, volume and intervals
- Weatherproof – NEMA Rated casing is designed to withstand outdoor use

### 4 Configurations available:

- Agricultural # MEGA-AG
- Crow / Raven # MEGA-CROW
- Woodpecker # MEGA-WP
- Marine / Gull # MEGA-MAR

### Applications

Repels pest birds including crows, ravens, starlings, blackbirds, grackles, woodpeckers, double crested cormorants and more; also deters marine birds such as ring-billed gulls, herring gulls, California gulls, black-headed gulls, glaucous-winged gulls, etc.

Effective coverage up to 30 acres.

Recommended for use in large, remote outdoor areas, especially for multi-acre applications, such as:

- Landfills
- Airfields
- Fish farms
- Wastewater treatment facilities
- Etc.

### Benefits

- Cut recurring cleanup and repair costs
- Protect property, landscaping, vehicles, and more from corrosive bird droppings
- Reduce health and liability risks associated with pest bird infestation
- Prevent the spread of diseases, such as West Nile, Salmonella and E. Coli
- Eliminate fire hazards caused by birds building nests in vents and chimneys
- Avoid government and safety inspection failures
- Prevent bird strikes on airfields – improve flight safety and avoid costly damage
- Decrease bird nuisance

### Specs

- Coverage: Up to 30 acres
- Power Input: 12vDC (3 amps) via solar panel and battery
- Sound Pressure: up to 125 dB
- Frequency: 2,000–10,000 Hz
- Compliance: UL and CE listed
- EPA Est. 075310-OR-001
- Included: Generating unit with two built-in high-output amplifiers, 20-speaker tower with audio cables, 40 watt solar panel, battery clips and all mounting hardware.
- Proudly made in the USA

### Guarantee + Warranty

Backed by our 30-day electronics performance satisfaction guarantee AND our 6-month manufacturer's warranty against material defects.
