

## Terror Eyes

See website for current pricing.

Repel pest birds with this large, intimidating 3D predator balloon.

- The “eyes” are holographic, creating the illusion that they are following the bird to attack.
- Bright colors and features exaggerate the glaring stare and gaping mouth of natural predators
- Terror Eyes moves in the wind, increasing efficacy
- Installs easily and requires little/no maintenance

Terror Eyes is a simple, cost-effective bird deterrent for homes, gardens, farm fields, barns, stables, vineyards, garages, loading docks, hangars, marinas, docks, warehouses and more!

### Customer Testimonial

***We just wanted to share with you how delighted we are with your product!*** We purchased your Terror Eyes bird repellent system for use on our sailboat. The work beautifully! We string them up the mast with one at the top, one at the spreaders, one near the bimini and an additional one over the boom. Since they have been installed, it is a pleasure to find our boat clean. We have observed that when birds approach, they detour our boat. It is amazing. Thank you for your ingenious solution to a very annoying problem.  
—Elaine and Jim M.

### Details

- Predator decoy; 3D balloon
- Weatherproof, vinyl, inflatable balloon
- Markings exaggerate the glaring stare and gaping mouth of natural predators
- Holographic material creates the illusion that the eyes are following pest birds
- Wind causes the Terror Eyes to move in the wind, increasing efficacy
- Easy installation

### Applications

Target pests include: pigeons, sparrows, starlings, woodpeckers, swallows, crows, blackbirds, grackles, and waterbirds such as geese, ducks and seagulls.

Effective where visible, up to once acre of open space.

Recommended for use in outdoor areas and semi-enclosed spaces, such as:

- Warehouses & facilities
- Transportation & infrastructure zones
- Loading docks & hangars
- Harbors & marinas
- Garages, parking lots, building rooftops
- Farm fields, barns, stables, orchards, vineyards
- Homes, gardens, porches, patios
- Etc.

### Benefits

- Cut recurring cleanup and repair costs
- Protect buildings, equipment, and vehicles from corrosive bird droppings
- Reduce health and liability risks associated with pest bird infestation
- Prevent the spread of diseases, such as West Nile, Salmonella and E. Coli
- Eliminate fire hazards caused by birds building nests in vents and chimneys
- Avoid government and safety inspection failures
- Save outdoor grounds from bird damage
- Increase property aesthetics
- Decrease nuisance for residents, workers, customers, etc.
