

Ultrason X

See website for current pricing.

The Ultrason X® is a high-quality ultrasonic bird repellent system. It is the world's first ultrasonic repeller specifically designed for outdoor, year-round use. Ultrasonic means that it is "silent to humans", so you can effectively get rid of birds while maintaining a comfortable environment for your customers and employees. **Most ultrasound only works indoors, but this device is powerful enough for use within medium-sized outdoor areas.**

- Four speaker system creates powerful high-frequency ultrasonic waves
- Weatherproof, NEMA Rated casing
- Designed for outdoor, year-round use
- Covers up to 3,600 sq. ft.

Details

- Ultrasonic repeller
- Keeps pest birds and small animals away from medium-sized outdoor areas (up to 3,600 sq. ft.)
- Non-species-specific sounds are ideal for repelling any bird
- Utilizes NEWEST technology to create powerful high-frequency ultrasonic waves
- Weatherproof – NEMA Rated casing is designed to withstand outdoor use

Applications

Target pests include: pigeons, sparrows, starlings, crows, blackbirds, grackles, seagulls, swallows, etc.; also deters bats, rodents and small critters.

Effective coverage up to 3,600 sq. ft.

Recommended for use within specific (medium-sized) outdoor areas, such as:

- Retail spaces
- Gas stations, hotels, restaurants
- Patios & balconies
- Schools & hospitals
- Gardens & courtyards
- Parking lots
- Facilities, warehouses, manufacturing
- Etc.

Benefits

- Cut recurring cleanup and repair costs
- Protect buildings and equipment from corrosive bird droppings
- Reduce health and liability risks associated with pest bird infestation
- Prevent the spread of diseases, such as West Nile, Salmonella, E. Coli, Histoplasmosis and even rabies (found in bats)
- Avoid government and safety inspection failures
- Save outdoor grounds from bird damage
- Increase/maintain property aesthetics
- Decrease nuisance for residents, workers, customers, etc.
