

### *Specifications*

**Part Number:** BSL

**Coverage:** Up to 10,000 sq. ft.

**Voltage Options:** 110V, 220V

**Unit Dimensions:** 8" diameter x 7.5" height

**Shipping Dimensions:** 11" x 11" x 13"

**Shipping Weight:** 4 lbs.

## Bird Strobe Light

Effectively deter pigeons, sparrows, and other pest birds from indoor facilities using the Bird Strobe Light—a powerful, silent bird control device designed for industrial and commercial spaces. This visual deterrent emits intense flashes of light and creates shadows that disorient and repel birds, making the area uncomfortable and uninhabitable for them.

### **Key Features & Benefits**

- **Large Area Coverage:** Protects up to 10,000 square feet from a single unit
- **Humane & Silent:** Chemical-free operation with no noise disturbance
- **Fast Results:** Birds begin avoiding the area within hours of activation
- **Low Maintenance:** Durable construction with minimal upkeep requirements

### **Applications**

- Warehouses and distribution centers
- Aircraft hangars
- Loading docks
- Food processing plants
- Agricultural buildings and barns
- Indoor garden centers and nurseries
- Storage facilities
