

Bird-X Coyote Predator Decoy

Thank you for purchasing the Bird-X Coyote Predator Decoy.

Setup Instructions:

1. Unfold the decoy
2. Slide clips over the top and bottom decoy on the vertical fold line
3. Remove rubber caps from ends of stake legs and discard
4. Insert stake legs through the two top notches of the decoy on either side of the fold line
5. Slide the stake through the body until the top of the stake touches the top clip

Tip – For high wind environments shorten the decoy legs to enable the stake to further penetrate the ground
