

Specifications

Part Numbers: GB-1
Bird Species: Geese
Listings: Supply power source is UL and CE listed
EPA EST: 075310-OR-001
Voltage: 110V, 220V, 240V
Sound Pressure: 0 – 110dB at 1 meter
Cord Length: 5 ft. (110V); 6 ft. (220V/240V)
Coverage Area: 1.5 acres
Control Unit Dimensions: 6" x 6" x 3.5
Speaker Dimensions: 5.5" x 5.5" x 5
Weight: 4 lbs.

Goosebuster® Pro

The single-speaker Goosebuster® Pro effectively deters geese from outdoor areas by utilizing a combination of naturally recorded goose alarm and distress calls, along with predator sounds. This dynamic sonic deterrent is designed to create an environment that feels unsafe for geese, encouraging them to stay away.

Key Features & Benefits

- **Optimal Sound Coverage:** Equipped with a powerful speaker for maximum coverage.
- **Fully Programmable:** Easy-to-use switches allow users to optimize sounds, intervals and volume for best performance.
- **Flexible Operation Modes:** Choose from day, night, 24-hour, or random settings for tailored protection in dynamic environments.
- **Durable Design:** Robust ABS housing provides long-lasting, reliable performance.

Applications

- Bird control in agricultural fields
- Open warehouses, barns, and storage facilities
- Outdoor patios and public spaces
- Rooftops, parking structures, and commercial buildings
- Airports and hangars
- Marinas and docks
- Public parks, golf courses, and recreational areas
- Sports complexes, athletic fields

Package Includes

- Control Unit
- Sound card
- Power adapter
- Mounting bracket
- Battery cable and clips
- One external speaker with 100' of cable
