Bird Netting creates a physical barrier to prevent pest birds from entering specific areas. When installed properly, netting is 100% effective, making it ideal for zero-tolerance zones. It can be used to block pest bird access in many applications.

**PE-Plus Premium Grade BirdNet**

This 3/4” polyethylene netting is a permanent solution, ideal for commercial projects. The material is light-weight, pliable, maintenance-free, and durable – 10 year warranty!

*Bird-X can provide custom cut sizing to fit your needs.*

**3/4” Black Polyethylene Knotted Net**

- 100’x14’...1,400 sq. ft......NET-STR-100
- 200’x14’...2,800 sq. ft......NET-STR-200

**Structural Heavy-Duty BirdNet**

This 1/2” polypropylene netting is perfect for small businesses, homeowners, farmers and gardeners. It is tough, plastic netting that is light-weight, pliable, and resistant to elemental damage – lasts up to 5 years!

*Bird-X can provide netting lengths up to 5,000 feet!*

**3/4” Black Polypropylene Net**
- 100’x14’...1,400 sq. ft......NET-STD-100-14
- 200’x14’...2,800 sq. ft......NET-STD-200-14

**Standard BirdNet**

This 3/4” standard mesh netting is a great economical solution for homeowners and gardeners. It is light-weight, pliable and weatherproof.

*Bird-X can provide netting lengths up to 5,000 feet!*
Each job is different and demands some on-site ingenuity. It can be very difficult to install properly if each step isn’t carefully thought out. Double-check your measurements before cutting the net and be sure you have all materials necessary to complete the job before beginning.

*Call your account manager with any questions.*

---

**Bird Netting Install Overview:**
Corner/Primary attachments are under the most pressure and must be the strongest component in the system; be sure all attachments are firmly anchored. Be sure to install attachments every 45-50 feet for large jobs.

- **Wood:** use galvanized/stainless
- **Concrete:** use expanding net bolts
- **Steel:** use eye bolts and nuts

**Intermediate Attachments:**
These hold the cable tight against the structure to prevent bowing (giving birds room to enter/exit the area of coverage). Intermediate attachments should be installed every 20-25 feet. Smaller birds (such as sparrows and swallows) require intermediate attachments every 2 feet. These can be used for wood or concrete frames.

**Stringing Wire/Cable & Ferrules:**
The perimeter cable frames the entire area to be sectioned off by the netting. Ferrules secure the cables where they attach to the corner attachments. Slide the ferrules onto the cable before you form your connecting loop and secure it to the cable with the ratchet tool. Be sure there are at least two ferrules per loop to ensure strength and durability of the perimeter cable.

**Turnbuckles:**
Turnbuckles also must be well anchored as they are subject to a great deal of tension between the cable and the corner attachments – be sure your components are well secured. When installing, make sure the turnbuckles are all the way open. Pull the cable as tight as possible through the turnbuckle. Before tightening, be sure all slack in the cable is removed, taking up as much tension as possible and fasten with a screwdriver, etc. Be sure not to pull out any fasteners or eyehooks when tightening.

---

**Mounting Cable**
**Stainless Steel**
500’ Spool – 3/32”, 49 Strand Cable
Cable, 7x7, 3/32” (2mm) diameter with 920 lb. tensile.

**Eyebolt Screw**
For wood or thick sheet metal surfaces.

**Stainless Steel (20 pack)**
Corner/end attachment. 17/32” I.D., 1” lag thread.

**Eyebolt w/Nut**
Corner/end attachment for an I-beam or other thick metal.

**Stainless Steel (10 pack)**

**Galvanized (10 pack)**

**Net Concrete Spikes**
This hammer-in attachment is the strongest attachment for stone, concrete or solid brick. It does not require a plastic anchor sleeve; the bent shaft holds it securely in place. Zinc coated.

**Stainless Steel Net Spikes, Small (100 pack)**

**Galvanized Net Spikes, Small (100 pack)**

**Eyebolt Anchor**
Corner/end attachment. M6 high load bearing expansion bolt anchor. For most masonry, stone, or concrete. This M6 netbolt needs a 14mm drill bit.

**Stainless Steel (10 pack)**
**Girder Clip**

This strong, hammer-on clip allows you to attach cable to hard-to-drill steel beams. Hammer the clip into the edge of an I-beam with the cable running through the jaws (not through the hole), and your cable is secure.

- **1/8"–1/4" (100 pack)**
  MTG-GIRD-1
- **5/16"–1/2" (100 pack)**
  MTG-GIRD-2
- **9/16"–3/4" (100 pack)**
  MTG-GIRD-4

**Heavy Duty Steel Clamp. 3/32"**

This clamp defines the term “heavy duty”. Your best bet for larger net installation, this clamp can hold up to 630 pounds of tensioned weight. Bolt to an I-beam or other steel structure and run your cable inside the jaws. Opens up to 2".

- **Stainless Steel Clamp (4 pack)**
  MTG-CLAMP-SS

**Turnbuckles**

Hook-and-eye turnbuckles for tensioning Net Cable.

- **Stainless Steel Turnbuckles (10 pack)**
  Medium, 1/4" x 3-1/2"
  MTG-TURN-SM-SS
  MTG-TURN-MD-SS
  MTG-TURN-LG-SS

**Ferrules, 2.5MM**

Double Sleeve Zinc/Copper Ferrules. For connecting short cable runs (3/32"). Ratchet Crimper required.

- **Copper (100 pack)**
  MTG-FERR-C
- **Aluminum (100 pack)**
  MTG-FERR

**Net Ratchet Crimp Tool**

Hand operated, ratcheting crimper for ferrules.

- **MTG-RATCHET**

**Netting Hardware Continued**

**Multi-Purpose Cable Bracket**

1.25" bracket is used as an end or intermediate bracket and installed as either a permanent fixture or as a quick-release cable holder.

- **Stainless Steel (100 pack)**
  MTG-BRACKET-SS

**Net Ring Tool**

Hand operated, auto-feed ring tool. Installs net rings around net, cable, zippers, etc.

- **MTG-RING-TOOL**

**Net Rings**

Net rings secure seams and fasten the netting to the cable, zippers, etc. Ring Tool required.

- **Stainless Steel (2,500 pack)**
  MTG-RINGS-SS

**Net Access Clip**

Connect pieces of netting together securely with stainless steel clips.

- **3/4" Stainless Steel (100 pack)**
  MTG-ACCESS-CLIP
- **2" Stainless Steel (100 pack)**
  MTG-ACCESS-CLIP2

**Net Zipper**

UV resistant black zipper. Fasten to netting with net rings and ring tool.

- **1' Black, 5MM**
  MTG-ZIPPER-1
- **3' Black, 5MM**
  MTG-ZIPPER3
- **6' Black, 5MM**
  MTG-ZIPPER
- **Custom size**
  MTG-ZIPPER-C

**Net Ratchet Crimp Tool**

Hand operated, ratcheting crimper for ferrules.

- **MTG-RATCHET**

**Pneumatic Ring Tool**

16 gauge 3/4" C-Ring. Magazine capacity of 125.

- **1/2" tool also available**
  MTG-PN-RINGTOOL-3/4

Two (2) ferrules per cable connection.
Bird-X Stainless Steel Bird Spikes are used on structures worldwide to keep pest birds from roosting and nesting on building surfaces. The spikes are not harmful – just extremely irritating, intimidating, and uninviting.

Stainless Steel Bird Spikes are the industry standard on public and private RFPs. They won't corrode or decay and the flexible base allows for installation on curved surfaces.

Various sizes available. CAD files and documented specifications available upon request.

**Narrow Bird Spikes 2.5”**
- Top width: 2.5”
- Base width: 0.5”
- Highest point: 4.3”
- 10 ft........SLS-10
- 24 ft........SLS-24
- 50 ft........SLS-50
- 100 ft........SLS-100

**Regular Bird Spikes 4.5”**
- Top width: 4.5”
- Base width: 0.5”
- Highest point: 4.3”
- 10 ft........STS-10
- 24 ft........STS-24
- 50 ft........STS-50
- 100 ft........STS-100

**Extra Wide Bird Spikes 7.5”**
- Top width: 7.5”
- Base width: 0.5”
- Highest point: 4.3”
- 10 ft........EWS-10
- 24 ft........EWS-24
- 50 ft........EWS-50
- 100 ft........EWS-100

**Extra Tall Bird Spikes 7”**
- Top width: 7”
- Base width: 0.5”
- Highest point: 5.75”
- 98 ft........ETS-98

**Special Adhesive**
Designed for installing Bird-X Bird Spikes. One (1) tube adheres 15-20 feet of spikes. Weatherproof; works on a wide range of material.

10.5 oz. tube
SSA
Bird-X Plastic Bird Spikes are made of durable polycarbonate which will not corrode or decay. Bird Spikes eliminate landing surfaces and increase property aesthetics. The flexible base allows for easy installation on curved surfaces.

CAD files and documented specifications available upon request.
Avishock™ Bird Shock Track is flexible and adaptable, almost invisible, extremely long-lasting, and humane. It was created with easier and safer installation in mind, featuring snap connectors and longer rolls, no sharp parts to reduce risk of injury, and with a flatter base to help reduce the use of glue. Condition birds to stay away with low-profile electrified track that conforms to any architectural surface.

Avishock™ Track
Brand new design - low-profile design ideal for preserving building aesthetics.

Fewer energizers (and power sources) are required, making installation very fast and reducing material costs. Flexible track is quick and easy to apply. Less glue is required, saving time and glue expense. Copper strips are covered by a conductive plastic cover, protecting them from harsh weather conditions. Reliable performance over a long period of time due to UV and weather-resistant materials.

Favored by clients, architects, and installers over other solutions, used extensively on heritage sites and challenging building designs as well as modern buildings where aesthetics are most important.

65 ft. Rolls

Special Adhesive
Can be used to adhere Shock Track to a variety of surfaces.

Weatherproof; works on a wide range of material.

**10.5 oz. tube**
SSA

**Digital Voltage Tester**
Used to test that the track is powered. Tester reads in 100v increments up to 10,000. Put one probe to one track braid and the other to the second track braid. The reading should be between 5,000v and 9,000v (5.0 - 9.0kV)

SHK051

**Lead Wire (65’)**
Heavily insulated, twisted copper is easy to cut, strip and crimp. Used for connecting track to track to energizer.

Brown: SHK111
Black: SHK112

**Drainage Tubes (100 pack)**
To be used anywhere where water pooling is a risk, e.g. flat or gently sloping substrates. Apply enough tubes to allow drainage e.g. 2 tubes every 1 ft.

SHK130

**12V Battery Charger**
300-2,500 ft. of track
SHK-C-12V

**Solar Charger**

**Warning Window Stickers (x100)**
SHK033

**Avisshock™ Shears**
Ideal for cutting Avisshock™ track and lead wire.
SHK136

**Connector Crimp Tool**
Used to crimp the connectors to the Lead Wire.
SHK052

**Wire Stripping Tool**
Used to strip the insulation from the Lead Wire.
SHK053

**Avisshock™ 45° Cutting Guide**
A handy tool to ensure quick and accurate mitre cutting. Simply line up against the track and cut along the edge.

SHK054
Bird Wire is a discreet, humane, and highly-effective bird control solution for ledges, beams, signs and other long surfaces. Stainless steel wires are attached to stainless steel posts at different heights, creating an uneven landing surface and making it difficult – if not impossible – for birds to perch on the treated surface.

**Bird Wire Cable**
Stainless steel wire, 1X7 nylon-coated. Diameter is 1mm

- 250’ BW-WIRE-250
- 500’ BW-WIRE
- 1,000’ BW-WIRE-1K

**Glue-On Bases (10 pack)**
Bases can be glued or screwed to surfaces. Posts are inserted in bases.

- Black BW-BASE-BLACK
- Grey BW-BASE-GREY
- White/Clear BW-BASE-WHITE
- Tan BW-BASE-TAN

**Posts (100 pack)**
Stainless steel posts have flattened heads with hole for wire.

- 3.5” BW-POST-3.5
- 4.5” BW-POST-4.5
- 5.0” BW-POST-5.0
- 6.0” BW-POST-6.0

**Railing Clamps (10 pack)**
Use to attach wire to round surfaces, such as pipes and posts.

- 1” BW-CLAMP-1
- 2” BW-CLAMP-2
- 3” BW-CLAMP-3
- 4” BW-CLAMP-4

**Triangular Ridge Bracket**
Runs birdwire along roof ridges. Flexible base fits any angle or roof fridges. 3.5” post. BW-BRACKET-TRI

**Standard Springs (100 pack)**
Easily attach Bird Wire to posts. BW-SPRING

**Micro Springs (100 pack)**
Easily attach Bird Wire to posts (more subtle than the standard size). BW-SPRING-M

**Crimps (100 pack)**
Attach Bird Wire to posts by threading it through crimps. BW-CRIMP

**Vertical Post & Wire Clamp**
Stainless steel clamp used to install birdwire post to gutter bead, metal roof, or other vertical surfaces. 3.5” x 0.16” BW-CLAMP-V

**Horizontal Post & Wire Clamp**
Stainless steel clamp used to install bird wire post to an I-beam or other horizontal steel surface. 3.5” x 0.16” BW-CLAMP-H
**Flock Reflector**
Uses sunlight and wind to create flashing lights during daylight hours to deter seagulls and other migratory birds.

Can be screwed or glued into place, also can be mounted with suction. Stand has adjustable angle for a variety of positions.

*Aluminum and plastic design*
FR

Ultrasonic & Sonic Deterrents

Sonic bird control devices are easy to install, fully programmable, & extremely effective. Broadcast bird alarm calls & predator cries that condition pest birds to stay away from the area – one device covers multiple acres of land!

Super BirdXPeller PRO
Outdoor, sonic pest bird repeller gets rid of birds in areas up to 6 acres.
SBXP-PRO-1 Version 1 repels: Pigeons, Starlings, Sparrows, & Gulls
SBXP-PRO-2 Version 2 repels: Crows, Blackbirds, Grackles, Cormorants, & Ravens
SBXP-PRO-WP Version WP repels: Woodpeckers & Sparrows

BroadBand PRO
Both sonic & ultrasonic bird repeller, covers up to 6 acres. Option to include 3 visual scares
BB-PRO

GooseBuster
Sonic goose control device uses authentic recordings of Canada geese to deter geese & get rid of infestations. Covers up to 7 acres
GB

Solar Panel
Solar panel converts sunlight into electricity and charges 12v batteries for DC (direct current) appliances. Works with Bird-X sonic devices
SOLPAN 5-watt, 20” x 9” x 1”
SOLPAN2 5-watt, 37” x 16” x 1”

Ultrasonic bird repellers are simple to install, extremely low-profile, & highly effective. Repel pest birds discreetly & permanently using silent-to-humans ultrasonic sound waves! Ultrasonic technology is extremely irritating & disorienting to birds, but remains a safe, humane & eco-friendly option.

Ultrason X
Outdoor, ultrasonic pest bird repeller gets rid of birds in areas up to 3,600 sq. ft.
USX
ECC Floating Ball Blankets
Covers the surface area of water and wastewater applications

ECC Bird Balls provide several advantages over other systems:
• Reduction of liquid loss through evaporation by up to 90%
• Reduced chemical consumption
• Improved working environments
• Allows movement of equipment through the liquid
• Eliminates algae and weeds by blocking the sunlight UV rays
• Balls spread automatically as the liquid levels rise and fall
• Reduced heat loss maintains biological reactions during cold weather
Control Pest Birds Indoors
Lasers constantly change patterns to prevent acclimation.

Remote controlled Fat Beam technology safely frightens birds away!

Laser Bird Control is a well-documented way to chase away pest birds without sound. The lasers and patterns change constantly to prevent acclimation. The beam seeks out their roosting-spots, alarming and confusing them, causing them to flee. Laser Bird Control is a humane & eco-friendly solution.

Indoor/Outdoor Laser Specifications:

- Laser color: Red + green
- Net Weight: 1.5kg
- Power: AC100-240V, 50-60Hz
- Electric Current: 100mA
- Classification: CLASS 3R
- Fuse: 2A
- Housing: Cast aluminum
- Beam Divergence: 60°
Autonomous Flight

Maximum Bird Control Effectiveness

The latest Bird Control Technology

Ideal for commercial applications where a falcon or other manual drone device would be used.

- Saves time and money
- Simple to use, implement, and operate
- Professional solution for tailored, individual situations

The first drone of its class made specifically for bird control. The ProHawk™ UAV combines a sonic bird repeller with the latest autonomous flight GPS technology and design. Patented design, Made in USA.

- Fully Autonomous Flight - once programmed, simply set unit outside and hit start
- The unit will launch, patrol, and land on its own
- Set “waypoints” to perfectly customize patrol areas via GPS technology
- Terrifying physical presence is heightened by sonic predator sounds
- Camera options available
- Professional-grade carbon fiber construction
- Save hours of labor and thousands of dollars
Bird-X works closely with professional installers and PCO’s on projects of all sizes. We understand the urgent and competitive nature of the industry, and we’re here to help.

From initial bidding support to product training and custom consultations, your dedicated account manager will take care of you promptly with expert advice and information.

Please contact us and let us know what you need.
