3 About Bird-X

4 Bird Netting
Exclusion netting prevents pest birds from entering specific areas – when installed properly, it is 100% effective.

5 Netting Hardware
Commercial-grade hardware needed to install Bird-X BirdNet – cables, screws, nuts, brackets, turnbuckles, ferrules, and more.

7 Bird Spikes
Bird spikes protect surfaces from pest bird infestation. Available in Stainless Steel or Plastic. Available in multiple lengths, heights, and widths.

9 Avishock™, Hardware & Chargers
Avishock™ track gives a mild electric shock when touched, conditioning birds and pest rodents to stay away from treated surfaces.

11 AviAngle™
AviAngle™ is a bird slope exclusion device that excludes all pest birds and wildlife from ledge-based areas.

12 Bird Wire & Post Products
Bird Wire is great for high-profile ledges where a less visible solution is needed. Wires are installed at differing heights making it difficult for birds to land.

13 Solar Mesh Guard Kit
Solar Mesh Kits protect the roof, electrical wiring and solar panels from pest damage.

14 Indoor & Outdoor Laser Bird Control
Colored Laser Array frightens and deters birds for up to 10,000 sq. ft.

15 Other Bird Repellent Products
Bird Proof Gel and liquids, taste aversions, visual scares, predator decoys, traps, and more.

16 Sonic & Ultrasonic Electronic Bird Repellers
Electronic repellers provide effective, money-saving, humane bird control solutions.

18 Pigeon & Sparrow Traps
Humane traps allow birds a way in, but can only be removed by hand.
Bird-X is the leading brand of **humane** and **eco-friendly** pest and bird control solutions worldwide—protecting human health, wildlife and the environment in which we all live.

Established in 1964, the Chicago-based company manufactures a complete line of unique pest control products with an unmatched focus on quality, efficacy and customer service.

Bird-X works closely with professional installers and pest management professionals on projects of all sizes.

- 50'x100'......5,000 sq. ft......NET-PE-50-100-1

**Structural Heavy-Duty BirdNet**

This 1/2" polypropylene is perfect for small businesses, homeowners, farmers, and gardeners. It is durable, plastic netting that is lightweight, pilable, and resistant to elemental damage. Lasts up to 5 years.

**1/2" Black Polypropylene Net**
- 100'x14'......1,400 sq. ft......NET-STR-100
- 200'x14'......2,800 sq. ft......NET-STR-200

**Standard BirdNet**

This 3/4" standard mesh netting is a great economical solution for homeowners and gardeners. It is lightweight, pilable and weatherproof.

**3/4" Black Polypropylene Net**
- 100'x14'......1,400 sq. ft......NET-STD-100-14
- 200'x14'......2,800 sq. ft......NET-STD-200-14
Each job is different and demands some on-site ingenuity. Double-check your measurements before cutting the net and be sure you have all materials necessary to complete the job before beginning.

Call your account manager with any questions

Bird Netting Install Overview

Corner/Primary attachments are under the most pressure and must be the strongest component in the system; be sure all attachments are firmly anchored. Be sure to install attachments every 45-50 feet for large jobs.

Intermediate Attachments

These hold the cable tight against the structure to prevent bowing (giving birds room to enter/exit the area of coverage). Intermediate attachments should be installed every foot.

Stringing Wire/Cable & Ferrules

The perimeter cable frames the entire area to support the netting. Ferrules secure the cables where they attach to the turnbuckles. Slide the ferrules onto the cable before you form your connecting loop and secure it to the cable with the ratchet tool. Be sure to use at least two ferrules per loop to ensure strength and durability of the perimeter cable.

Turnbuckles

Turnbuckles also must be well anchored as they are subject to a great deal of tension between the cable and the corner attachments – be sure your components are well secured. When installing, make sure the turnbuckles are all the way open. Pull the cable as tight as possible through the turnbuckle. Before tightening, be sure all slack in the cable is removed, taking up as much tension as possible and fasten with a screwdriver, etc. Be sure not to pull out any fasteners or eyehooks when tightening.

Mounting Cable

Stainless Steel

500’ Spool – 3/32”, 49 Strand Cable. Cable, 7x7, 3/32” (2mm) diameter with 920 lb. tensile.

MTG-CABLE-SS

Screw

Stainless Steel (10 pack)

1/2” lay eye screw.

MTG-LAG-SCREW-SS

Eyebolt Screw

Stainless Steel (10 pack)

For wood or thick sheet metal surfaces. Corner/end attachment. 17/32” I.D., 1” lag thread.

MTG-SCREW-MD-SS

Eyebolt w/Nut

Corner/end attachment for an I-beam or other thick metal.

Stainless Steel (10 pack)                Galvanized (10 pack)

MTG-BOLT-MD-SS                MTG-BOLT-MD

Net Concrete Spikes

This hammer-in attachment can be used for stone, concrete or solid brick. It does not require a plastic anchor sleeve; the bent shaft holds it securely in place. Zinc coated.

Stainless Steel Net Spikes                Galvanized Net Spikes

Small (100 pack)                Small (100 pack)

MTG-SPIKES-SS                MTG-SPIKES

Eyebolt Anchor

Corner/end attachment. M6 high load bearing expansion bolt anchor. For most masonry, stone, or concrete. This M6 netbolt needs a 14mm drill bit.

Stainless Steel (10 pack)

MTG-NETBOLT-MD-SS
Netting Hardware

**Multi-Purpose Cable Bracket**
1.25” bracket is used as an end or immediate bracket and installed as either a permanent fixture or as a quick-release cable holder.
*Stainless Steel (100 pack)*
MTG-BRACKET-SS

**Heavy Duty Steel Clamp**
This clamp can hold up to 630 pounds of tension weight. Bolt to an I-beam or other steel structure and run your cable inside the jaws. Opens up to 3/4”.
*Stainless Steel Clamp (10 pack)*
MTG-CLAMP-1-SS

**Girder Clip**
This strong, hammer-on clip allows you to attach cable to hard-to-drill steel beams. Hammer the clip into the edge of an I-beam with the cable running through the jaws (not through the hole), and your cable is secure.
1/8”–1/4” (100 pack)
MTG-GIRD-1
5/16”–1/2” (100 pack)
MTG-GIRD-2
9/16”–3/4” (100 pack)
MTG-GIRD-4

**Turnbuckles**
Hook-and-Eye Turnbuckles for tensioning Net Cable.
*Stainless Steel Turnbuckles (10 pack)*
Medium, 1/4” x 3-1/2”
*Call for other size options*
MTG-TURN-MD-SS

**Ferrules, 2.5MM**
Double Sleeve Zinc/Copper Ferrules. For connecting cable runs (3/32”). Ratchet Crimper required. Two (2) ferrules per cable connection.
*Copper (100 pack)*
MTG-FERR-C

**Bracket with Hilti Pin**
Used as a corner or intermediate attachment or as a quick-release cable holder.
MTG-BRACKET-HILTI PIN

**Net Ring Tool**
Hand operated, auto-feed Ring Tool. Installs net rings around net, cable, zippers, etc.
MTG-RING-TOOL

**Net Rings**
Net rings secure seams and fasten the Netting to the cable, zippers, etc. Ring Tool required.
*Stainless Steel (2,500 pack)*
MTG-RINGS-SS

**Net Access Clip**
Connect pieces of netting together securely with stainless steel clips.
3/4” *Stainless Steel (100 pack)*
MTG-ACCESS-CLIP
2” *Stainless Steel (100 pack)*
MTG-ACCESS-CLIP2

**Net Zipper**
UV resistant black zipper. Fasten to netting with net rings and ring tool.
1’ Black, 5MM
MTG-ZIPPER-1
3’ Black, 5MM
MTG-ZIPPER3
6’ Black, 5MM
MTG-ZIPPER

**Net Ratchet Crimp Tool**
Hand operated, ratcheting Crimper for ferrules.
MTG-RATCHET

**Pneumatic Ring Tool**
16 gauge 3/4” C-Ring. Magazine capacity of 125.
MTG-PN-RINGTOOL-3/4
MTG-PN-RINGTOOL-1/2
Bird-X Stainless Steel Bird Spikes are used on structures worldwide to keep pest birds from roosting and nesting on building surfaces. The spikes are not harmful – just extremely irritating, intimidating, and uninviting.

Stainless Steel Bird Spikes have been the industry standard for 20+ years. They won’t corrode or decay and the flexible base allows for installation on curved surfaces.

Various sizes available. CAD files and documented specifications available upon request.

**Narrow Bird Spikes 2.5”**

- Top width: 2.5”
- Base width: 0.5”
- Highest point: 4.3”
- 10 ft........SLS-10
- 24 ft..........SLS-24
- 50 ft..........SLS-50
- 100 ft.......SLS-100

**Regular Bird Spikes 4.5”**

Avishock™ Bird Shock Track is flexible and adaptable, almost invisible, extremely long-lasting, and humane. It was created with easier and safer installation in mind, featuring snap connectors and longer rolls, no sharp parts to reduce risk of injury, and with a flatter base to help reduce the use of glue. Train birds to stay away with low-profile electrified track that conforms to any architectural surface.

**Avishock™ Track**

Brand new, low-profile design makes Avishock™ Track ideal for preserving building aesthetics.

Fewer energizers (and power sources) are required, making installation quick and easy and reducing overall material costs. Our copper strips are fully encased and durable despite weather conditions. Reliable performance over a long period of time due to UV and weather-resistant materials.

Favored by project owners, architects, and installers over other solutions when aesthetics are vital. Used extensively on heritage sites and challenging or modern building designs.

AviAngle™ is designed to exclude all pest birds and animals from ledge-based areas. Because birds and other animals are unable to obtain a level position, they cannot remain on the treated areas.

**AviAngle™**

AviAngle™ is a bird exclusion device that excludes all pest birds and wildlife from ledge-based areas. Made of rigid PVC with UV inhibitors, AviAngle™ is resistant to virtually all weather conditions and harsh environments when installed according to manufacturer instructions. The smooth surface of the UV-protected PVC material turns any surface with a 90° angle into a 45° slope that prohibits birds and from landing and getting a stable foothold.

AviAngle™ can be installed using Bird-X Special Adhesive, wood screws, nails or clamps, depending on the surface area and the application. AviAngle™ Base Unit will cover approximately 6” of ledge depth, comes in four (4’) linear foot sections and is packaged in 12 sections per box for a total of forty-eight (48’) linear feet per box.

3.5” x 0.16”
BW-CLAMP-H

Bird Wire is a discreet, humane, and highly-effective bird control solution for pipes, edges, beams, signs, and other long surfaces. Stainless steel wires are attached to stainless steel posts at different heights, creating an uneven landing surface and making it difficult—if not impossible—for birds to perch on the treated surface.
Solar Mesh Kits protect the roof, electrical wiring and panels from damage by birds and rodents. The system creates a physical barrier to exclude unwanted pests from the treated area, ensuring that the wiring is inaccessible to pest birds and rodents.

**Solar Mesh Guard Kit**

This system securely protects panels from pest birds and rodents without damaging or voiding the panel warranty. The mesh is made of stainless steel welded into half inch squares and coated in thick protective PVC coating that is resistant to UV degradation and chemical corrosion. Bespoke panel clips are made from UV protected nylon. The Solar Mesh Kit can be mounted to any solar panel with a bracket depth of greater than 30 mm.

**Solar Kit**

Includes 100 ft. of mesh and 100 fastening clips.

**Mesh Only**

- Material: 302 stainless steel
- Length: 100 ft.
- Wire gauge: 0.7 mm
- Width: 8”
- PVC thickness: 0.3 mm
- Grid: ½” squares

**Fastening Clips Only**

- Material: UV protected nylon
- Length: 123 mm
- Clip depth: 32 mm
- Width: 10 mm
- Count: 100 pieces
**Bird-X Laser**

Laser Deterrent Devices flash the area and the pest with disorienting laser light and they quickly learn that this area is unwelcoming. Since the deterrent works by bothering the pests’ eyesight, it is reliably effective against a huge variety of pest animals. Bird-X Laser Devices use “Fat Beam” technology to ensure our units are safe to use near humans while being strong enough to deter the pests.

**Includes:**
- Mounting Accessories
- Remote Control with Timer Options
- Power Cord

**Indoor/Outdoor Laser Specifications:**
- Laser color: Red + green
- Net Weight: 1.5kg
- Power: AC100-240V, 50-60Hz
- Electric Current: 100mA
- Classification: CLASS 3R
- Fuse: 2A
- Housing: Cast aluminum
- Beam Divergence: 60°
**Bird Deflector**
Uses sunlight and wind to create flashing lights during daylight hours to deter seagulls and other migratory birds. Can be screwed or glued into place. Equipped with adjustable angle arm for multiple positions.
*Aluminum and plastic design*
BD

**Bird Proof Gel**
Surface Repellent Gel; tacky substance keeps birds off surfaces. Discreet and low-profile, perfect for signs and entrances.
*12 tubes per case*

Ultrasonic & Sonic Deterrents

Sonic Bird Control Devices are easy to install, fully programmable & extremely effective. Broadcast bird distress calls & predator calls that condition pest birds to stay away from the area – one device covers multiple acres of land.

**Super BirdXPeller PRO**
These units cover areas up to 6 acres.

*Version 1 repels: Pigeons, Starlings, Sparrows, & Gulls*
**SBXP-PRO-1**

*Version 2 repels: Crows, Blackbirds, Grackles, Cormorants, & Ravens*
**SBXP-PRO-2**

*Version WP repels: Woodpeckers & Sparrows*
**SBXP-PRO-WP**

**BroadBand PRO**
Both Sonic & Ultrasonic Bird Repeller. Covers up to 6 acres. Option to include 3 visual scares
**BB-PRO**

**GooseBuster**
Sonic Goose Control Device uses authentic recordings of Canada geese alarm and alert sounds to deter geese. Covers up to 7 acres.
**GB**

**Solar Panel**
Solar Panel converts sunlight into electricity and charges 12v batteries for DC (direct current) appliances. Works with Bird-X sonic devices.

**Ultrason X**
Ultrasonic Bird Repellers are simple to install, extremely low-profile, & highly effective. Repel pest birds discreetly & permanently using silent-to-humans ultrasonic sound waves. Ultrasonic technology is irritating & disorienting to birds, but remains a safe, humane & eco-friendly option. These units cover areas up to 3,600 sq. ft.
**USX**
Mega Blaster PRO
Our most powerful sonic system features two high-output amplifiers that drive our specially-designed 20 speaker tower. Solid-state electronics are mounted inside a NEMA-type control box, suitable for almost any large outdoor application. The intense sound output covers up to 25 acres, broadcasting distress calls at up to 125 decibels that frighten birds away for good.

MEGA

QuadBlaster QB-4
The QuadBlaster QB-4 is an indoor ultrasonic bird control system composed of 4 built in speakers and solid steel construction. Optional powerful flashing strobe light add-on creates a multi-sensory attack to frighten pests away from the area. The QB-4 covers up to 6,500 sq. ft. in enclosed or semi-enclosed areas.

Multi-chamber traps come with or without shade, water or feed accessories. Once birds enter, they cannot get back out the way they came. Birds move immediately to the elevated second level so they do not feel trapped and will not emit distress calls. Access doors allow for easy removal of birds.
CUSTOMER SATISFACTION
Customer satisfaction is of utmost importance to us. We’ve been in business since 1964 and are consistently top-rated by the Better Business Bureau. Our dedicated team is happy to answer any questions and provide free consultations.

DURABILITY
Our solutions are built to last. We use high-grade materials to ensure that our bird control solutions will withstand harsh environmental conditions and corrosion with little to no maintenance required.

SUSTAINABILITY
Bird-X is passionate about providing sustainable solutions. That’s why Bird-X has been leading the movement to develop, improve, and offer eco-friendly repellent solutions for over 50 years. We have proven that wildlife and pest populations can be repelled from unwanted areas humanely.

RESEARCH AND PRODUCT DEVELOPMENT
We maintain an exceptionally strong commitment to new product development – putting the latest scientific discoveries, decades of innovative thinking, patented designs, and state-of-the-art technology into each of our products.
Bird-X works closely with professional installers and pest control professionals on projects of all sizes. We understand the urgent and competitive nature of the industry, and we’re here to help.

From initial bidding support to product training and custom consultations, your dedicated account manager will take care of you promptly with expert advice and information.

Please contact our knowledgeable sales team and let us know what you need.
