Mega Blaster Pro

Our most powerful sonic deterrent system effectively deters birds from large outdoor areas by utilizing a combination of naturally recorded bird alarm and distress calls, along with predator sounds. This dynamic audio solution is designed to create an environment that feels unsafe for birds, encouraging them to stay away.

Key Features & Benefits

- **Two High-Output Amplifiers:** Powerful amplifiers drive the system, ensuring that the sound is loud and clear across large areas.
- **20-Speaker Tower:** The specially-designed tower delivers an intense, wide-reaching sound, covering up to 25 acres.
- **Solid-State Electronics in a NEMA-Type Control Box:** Designed for durability and reliability, with electronics protected by a weather-resistant, industrial-grade NEMA-type enclosure.
- **Fully Programmable:** Users can fully customize the system's settings for optimal performance.

- **Replaceable Sound Chip:** The sound chip is replaceable, allowing for easy updates and upgrades.
- **Solar Powered:** Energy-efficient and ideal for remote locations where traditional power sources may not be available.
