

PEST-X

Plug-In Ultrasonic Pest Control

The PEST-X Plug-In Ultrasonic Pest Control device offers a simple, chemical-free way to repel pests from indoor spaces. This device uses ultrasonic frequencies to deter rodents and crawling insects. Inaudible to humans, cats and dogs, these frequencies ensure a safe and comfortable environment for your family. Just plug it into a standard outlet, and it works quietly to help maintain a pest-free environment.

Key Features

- **Safe & Humane:** Repels pests safely without the use of poisons or chemicals.
- **Targeted Effectiveness:** Specifically designed to repel rodents and crawling insects.
- **Plug & Play Convenience:** Just plug it in – no setup required.
- **Room Coverage:** Protects an average-sized room. For larger spaces or rooms with heavy furniture, use additional units.
- **Pet-Friendly:** Does not affect children, dogs, or cats. (Note: Small pets like gerbils, mice, and rats should be relocated during use.)
