

Specifications

Part Numbers: QB4 (unit only); QB4+S (unit and strobe)

Species: Pest birds, bats, rodents

Listings: Supply power source is UL and CE listed

EPA EST: 075130-OR-001

Voltage: 110V, 220V, 240V

Sound Pressure: 112dB at 1 meter

Frequency: 20 – 30 kHz

Cord Length: 5 ft. (110V); 6 ft. (220V/240V)

Coverage Area: 3,000-6,000 ft.

Control Unit Dimensions: 12"x12"x4"

Strobe Dimensions: 6"x4"x4"

Weight: 9 lbs.

Quadblaster QB-4

The QuadBlaster QB-4 is an advanced ultrasonic bird control system designed to protect large enclosed and semi-enclosed spaces. Featuring four built-in speakers, this powerful device emits ultrasonic sound waves that disorient and repel pest birds, bats, and rodents. Its high-frequency sound effectively drives these pests away without causing disturbances to humans, helping you maintain a cleaner and safer environment.

Key Features & Benefits

- **Large Coverage Area:** Protects up to 6,000 sq. ft., making it ideal for expansive facilities like warehouses, barns, and storage units.
- **Ultrasonic Emission:** Silent to humans but irritating to birds and other pests, ultrasonic emission keeps your property bird-free without disturbing people.
- **Adjustable Frequency Settings:** Choose from three modes: varied (modulates sound), Steady (constant frequency at 22 kHz), or Alternate (combines varied and steady).
- **Durable and Reliable:** Built with solid steel construction to ensure longevity in various environmental conditions.

- **Mounting Flexibility:** The device can be mounted in any orientation, allowing versatile installation options for easy setup.
- **Cost-Effective:** Reduces recurring costs from pest damage and cleanup, protecting buildings, equipment, and vehicles from corrosive droppings.
- **Enhanced Multisensory Deterrent:** Upgrade this unit (QB4+S) with an optional strobe light for an additional layer of sensory disruption.

Applications

- Warehouses and storage facilities
- Semi-enclosed parking structures
- Industrial plants and factories
- Agricultural barns and livestock areas
- Airplane hangars and garages
- Any enclosed or semi-enclosed area where birds, bats, and rodents cause damage

Package Includes

- Control Unit
- Power adapter
- Mounting bracket
- Strobe (QB4+S only)
