

Solar Mesh Kit

The Bird-X solar mesh kits are designed to keep birds and rodents from getting under solar panels, to protect the roof, electrical wiring and solar panels from damage. This system securely protects panels without damaging or voiding the panel warranty. The mesh is made of stainless steel welded into half inch squares and coated in thick protective PVC coating that is resistant to UV degradation and chemical corrosion. Bespoke panel clips are made from UV protected nylon.

Part# and Specifications

SOLAR KIT (includes 100 ft. of mesh & 100 clips)
SOLAR MESH (100 ft. of mesh only)
SOLAR CLIP (100 piece clip only)

Mesh

Material: 302 stainless steel
Length: 100 ft.
Wire gauge: 0.7 mm
Width: 8″
PVC thickness: 0.3 mm
Grid: 1/2″ squares

Fastening Clip

Material: UV protected nylon
Length: 123 mm
Clip depth: 32 mm
Width: 10 mm
Count: 100 pieces
