

## Specifications

**SKU Options:** TX-PRO-LF

**Dimensions:** 6" x 3" x 3"

**Coverage Area:** Up to 3,500 sq. ft.

**Sound Pressure:** 96 dB at 0.5 meters

**Frequency Range:** 3 – 19 kHz

**Voltage Options:** 110V (International options available)

**Compliance:** CE certified

**Warranty:** 30-Day Electronics Performance Satisfaction Guarantee.

EPA Est. 090813-CHN-001

# Transonic Pro (Low Frequency)

## Sonic and ultrasonic indoor pest control

The Transonic Pro® is an electronic pest control device that utilizes both sonic (audible) and ultrasonic (inaudible to most humans) sound waves to repel a variety of pests. Simply plug the device into any standard electrical outlet to deter rodents, bats, spiders, and more, without the need for harmful chemicals or traps.

Experience the safe, effective, and humane way to protect your space from unwanted pests.

## Key Benefits

- **Chemical-Free Solution:** No poisons, chemicals, or traps—safe for homes and businesses.
- **Effective on Multiple Pests:** Targets rodents, crawling insects, bats, and other unwanted creatures.
- **Versatile Placement:** Ideal for use in any indoor area where pests are present.
- **Cost-Effective:** Reduces cleanup expenses and helps prevent property damage.
- **Indoor Focused:** Specially designed for use in indoor environments.

## Ideal Applications

- Pantries
- Bathrooms
- Basements
- Mudrooms
- Garages
- Laundry Rooms
- Storage Areas
- Attics
- Crawl Spaces
- Warehouses

**Important Note:** Not recommended for prolonged use on the LOUD setting. Do not exceed 12 hours on the LOUD setting.
