Woodpecker Bundle

Woodpecker Pro - 1 Sonic Deterrent

Specifically programmed to repel woodpeckers! Naturally, recorded woodpecker distress calls and predator cries confuse, frighten, and disorient woodpeckers, forcing them to seek a calmer space. It is entirely programmable and utilizes authentic sounds with clear and high-definition playback. The Woodpecker PRO is a safe and humane solution to protect your property from extensive damage caused by woodpeckers.

- Deter woodpeckers with no traps or chemicals
- Customizable time intervals, volume control, and sound selection
- Covers up to 1 acre of land

Use instructions: Low volume, two distress calls two predator calls on Extra LONG (1-2 per hour daytime only) Random ON

3D Balloon Scare - 1 Terror Eyes®

Terror Eyes® bright colors and fierce features mimic natural predators. Holographic eyes create the illusion of a predator following pest birds to attack while moving organically with the wind. It is easy to install and requires little to no maintenance. Reduce damage in your yard caused by birds, keep them scared, and keep them out with these intimidating predator eyes following their every move!

With markings that exaggerate the glaring star and gaping mouth of natural predators, no birds will stick around when this is in the air! Wind causes the inflatable Terror Eyes® to move in the wind, increasing efficacy. Holographic material

creates the illusion that the eyes are following pest birds. The balloon is made of weatherproof vinyl and is extremely easy to inflate and install or hang.

Effective wherever visible, up to one acre of open space!

- 3D visual scare device
- Moves in the wind, increasing effects
- Bright colors mimic natural predators

Optical Gel Cups - 24-Pack

Optical Gel is a multi-sensory bird repellent that deters birds using sight, smell and touch. The gel disks are perceived as a safety hazard to pest birds by creating an illusion of fire or smoke, prompting them to avoid the treated area. Additionally, the citronella & peppermint scent combined with the sticky texture of the gel offers a multi-layered defense against birds, making it an effective solution for bird control. Optical Gel is made with agar and beeswax, making this product truly all natural & eco-friendly.

The 24-pack will cover 12-16 feet, single row in a straight line for ledges up to 6 inches wide. The disks should be no further than 6 inches apart, measured center to center. If the surface is wider, like a rectangle or a square, multiple rows will be required. The 24-pack is generally used on residential projects. Often two or more boxes are recommended depending on the scope of the work.

Optical Gel is offered in a 24-pack for small jobs and the 200-pack Contractor Box.
